CREST Certification Examination

Sample Electronic Candidate Worksheet

Issued by	CREST Assessors Panel
Version Number	1.0
Issue Date	25 June 2020
Classification	PUBLIC

1   Introduction

CREST has moved to the delivery of fully paperless practical examinations, both to support best practice during the Covid-19 pandemic and as part of CREST's environmental commitment.

Candidates attempting a CREST practical examination will be provided, at the CREST examination centre, with a copy of their question paper in PDF format and will be expected to complete it and upload it, along with any other material that is requested, to a CIFS (SMB) server.

This sample PDF has been provided to enable candidates to ensure that they have software which is capable of opening, completing and saving form-fillable PDFs. This has been tested with Adobe Acrobat Reader DC, but candidates are strongly advised to independently test their platform with this sample PDF.

The purpose of this sample PDF is purely to allow candidates to ensure that they can save a completed PDF. No technical nor examination technique inferences should be drawn from the style or content of this sample PDF.

The candidate is responsible for ensuring that they have software which is capable of saving a form-fillable PDF. There will not be a dedicated opportunity for candidates to verify that their platform can correctly complete and save PDFs.

CREST cannot provide, nor troubleshoot, software or platform issues relating to the completion of the electronic examination paper.
